PROFESSIONAL SUMMARY

A solution driven full-stack developer that loves solving problems with both technical and soft skills. I develop web pages using Vue.js. Backend operations are also done with the help of the Express.js framework on the Node.js platform. I want to secure a responsible career opportunity to fully utilize my training and skills, while making a significant contribution to the success of the organization.

SKILLS

- Programming language: Javascript
- Frontend: HTML | CSS | Bootstrap | jQuery | Vue.js
- Backend: Node.js | Express.js | Vuex | Axios
- Database: MongoDB | mongoose | MySQL
- Version Control: Git | Github
- Dev Tools: VS Code | Codepen
